

Buckinghamshire Railway Centre

Set in 25 acres of beautiful Buckinghamshire countryside, Buckinghamshire Railway Centre has been a working steam museum since 1969 and has recently achieved the prestigious Accredited Museum status.

The Education Service is a key part of the Centre and has grown ever-larger in recent years, developing a comprehensive education policy encompassing important parts of the curriculum, tailored to the individual school's needs. Some schools have visited us year after years to enjoy a truly memorable day-out.

A fascinating and exciting day could include a ride on both a full-size steam train and our wonderful miniature railway, a dining coach from Queen Victoria's Royal Train, exploring the engine sheds and time in our award-winning museum, including our unique, interactive Education Coach.

We also offer spectacular themed days: our Evacuees' Experience in September (including period vehicles, an air raid shelter, threshing machines and the Home Guard) and, back by popular demand, Victorian Day, including a real Victorian steam engine and coaches!

What visitors have said about our Education Service:

"We felt so welcome and really enjoyed it"-

Claudia, Asst. Headteacher (SEN), Stevenage

"I liked going on the big train and learning about trains"-

Oliver, Year 1 pupil, Hemel Hempstead

"The trip was absolutely fantastic! From start to finish, the children, teachers and parent helpers really enjoyed it"-

Tizzi, Class Teacher, High Wycombe

Education Opportunities

Key Stages 1 & 2

Learning outcomes and key topics that we can offer at Buckinghamshire Railway Centre

History
